

# Pendant

## What is it?

The pendant is a small, discreet, wearable device which allows the user to raise an alarm if they are in difficulty at home or in the garden.

## Who is it for?

Suitable for anyone of any age living independently who may need to raise an alarm to request assistance. The pendant can offer peace of mind and an extra level of support. It can be particularly useful for older, infirm or disabled people, individuals who have recently been discharged from hospital or vulnerable people who could be at risk of crime or domestic abuse.

## How does it work?

The waterproof pendant, which can be worn around the neck, on the wrist, or clipped to a belt, enables individuals to call for help by simply pressing a button. It can also be added to a key ring or mounted on the wall.

Within a 75m range, the pendant sends a radio signal to the Lifeline home unit or other telecare enabled systems. This raises an alarm to the monitoring centre, which will take appropriate action in response to the alert.

## Features

- ✓ *Integrated alarm button with LED for visual reassurance that the alarm has been pressed*
- ✓ *A range of easy to wear options, including:*
  - *Wrist strap - with soft hypoallergenic, elasticated strap with clasp available in two widths*
  - *Neck cord - with safety break link*
  - *Belt clip - allowing the user to attach the pendant to their clothing*
- ✓ *Auto low battery monitoring and alerts*

## The Basic Package

This product is available as part of the Basic Package which includes the pendant with a Lifeline unit. This links to our 24/7 monitoring centre. Additional wrist band and neck cord pendants can be added to the system if needed.

## Benefits

- ✓ *Provides increased peace of mind and reassurance for those living independently, their families and carers*
- ✓ *Small, compact and comfortable design is easy to wear and improves safety levels*
- ✓ *Enables maximum reliability operating on the 869MHz dedicated social alarm frequency*

## Why Argenti?

We focus on using the latest digital and mobile technology to enable people to feel safe, secure and independent, giving them the freedom to live the life they choose. Our service is already benefiting over 18,000 customers across the South East.
